Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status of Claims

This action is in response to the application filed August 16, 2001. Claims 1-130 are pending in this Office Action. Claims 1-130 are restricted and subject to election.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-32, 49-117, 120, 121, 124-127 and 129 are drawn a method for delivering messages based on a subscriber profile, classified in class 709, subclass 206.
- II. Claims 33-48, 118, 119 and 128 are drawn to a method for monitoring network conditions, classified in class 709, subclass 224.
- III. Claims 122, 123 and 130 are drawn to a method for sending a message based retrieval pattern of recipient, classified in class 709, subclass 232.

The inventions are distinct, each from the other because of the following reasons:

Inventions in Groups I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in Group I has separate utility such as sending a message. See MPEP § 806.05(d). Invention in Group II has separate utility as such a method for monitoring network conditions and prioritizing messages based on the conditions. Group III has separate utility because it bases the delivery of the message on the retrieval pattern of the recipient, or regulating data transfer. The search required for Groups I is not required for Groups II or III.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and divergent subject matter, restriction for examination purposes as indicated is proper. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Under 35 U.S.C. 133 a shortened statutory **period to reply to this Office Action is set to 30 (thirty) days.**
